

Attention Parents!

Homosexuals & "Gay" Organizations want to teach your children how to engage in explicit homosexual acts in Sex Education Classes in Hawaii's Public Schools!

By legalizing Civil Unions in Hawaii (SB232), homosexuals are one step closer to "indoctrinating" ***your child*** into the homosexual lifestyle. IF Civil Unions passes in Hawaii, their next step is to legalize Same Sex Marriage. This was already done in Vermont, Connecticut, New Hampshire and California: http://www.hawaiifamilyforum.org/filemgmt_data/files/101222_CU_TalkingPoints_Legislators.pdf

"Hawaii's civil union bill (SB232) is nearly identical to bills passed in Vermont, Connecticut, New Hampshire, New Jersey and California. Those led to courts ultimately imposing Same Sex Marriage on those states (except New Jersey – although they tried there). Not even the California Constitutional Amendment protecting marriage are safe from activist courts." **Quotes by Hawaii Family Forum**

Here is some Homosexual "Sex Education" Material called "The Little Black Book." (**WARNING** this website contains graphic material describing homosexual sex acts & lists "gay" bars & clubs in Massachusetts.) This material was distributed in Massachusetts ***Public Middle School students and Public High School students***:

http://www.massresistance.org/docs/issues/black_book/black_book_inside.htm

This is what a highly respected ***Medical Doctor*** says about The Little Black Book (**WARNING** although this doctor's description is medical in nature, some of the material is graphic):

http://www.massresistance.org/docs/issues/black_book/diggs_letter.html

Students attended a statewide conference called "Teach Out" but what was it really about? There were mostly ***High School students*** in attendance but there were some who attended who appeared to be ***12 or 13 years young*** (**WARNING** this website contains graphic descriptions of homosexual sex acts in detail ***for students***):

http://www.massnews.com/past_issues/2000/Schools/fistrep.htm#14

Smaller ***Elementary-aged children (Kindergarten & First Grade)*** in Massachusetts were also taught about homosexuality in Sex Education Classes. Parents were furious that they, as parents with legal rights were not forewarned and some of the parents sued the State of Massachusetts. However, these parents lost their cases and found out that they didn't have any legal rights since Same Sex Marriage is legal in their state. Here is an excerpt from CitizenLink:

EXCERPT: Parents are losing the right to oversee/direct the sexual education of their children in states like Massachusetts, where same-sex "marriage" is recognized as the moral equivalent to natural marriage.

The Parker and Wirthlin families in Massachusetts lost a federal lawsuit in 2008 when they asked to be informed when the teacher was going to address issues of sex and family. They were rudely informed by not one but two federal courts that any parental rights stopped at the schoolhouse door. Their right to control their children's moral upbringing did not supersede the homosexual agenda in Massachusetts. In the words of the 1st U.S. Circuit Court of Appeals: "Given that Massachusetts has recognized gay marriage under its state constitution, it is entirely rational for its schools to educate their students regarding that recognition."

The two children involved in the suit attended kindergarten and first grade. The gist of the state's argument, with which the court agreed, is that the earlier the state can indoctrinate our kids, the less likely that the values (the court

called them "attitudes and stereotypes" of course) taught at home can corrupt them. Think about that for a moment. To add insult to injury, the U.S. Supreme Court just this week refused to hear an appeal by the parents in the case.

What can we, as parents do?

Contact your Hawaii Senators and ask them to vote NO on SB232, the civil unions bill. If we can stop this bill, we can stop same sex marriage in Hawaii and then, we can stop the homosexuals from teaching our children homosexual sex education.

Hawaii Senators

Note: It is best to visit your Senator in person ASAP!

Senator Michelle Kidani, Mililani, Mililani Mauka, Waipio Ph (808) 586-7100 Fax (808) 586-7109 senkidani@capitol.hawaii.gov HI State Capitol 415 S. Beretania Room 228

Remaining Senators: www.capitol.hawaii.gov Click on "Senate" and then Click on Members

- If your Senator tells you about SB922, this bill would only give parents a right to opt out of sex education IF Same Sex Marriage is not legal; as in the cases in Massachusetts, parents could not opt out of homosexual sex ed being taught to their Kindergartners & First Graders! Civil unions are the first step to Same Sex Marriage. (Read **EXCERPT** on Page 1)
- If your Senator tells you that it's about civil rights or equality, they are lying to you. We know it's not about equality, Homosexual advocates know it's not about equality and the Senators know it's not about equality. Now the public (parents) knows it's not about equality.
- Don't give up! We don't want our children learning explicit homosexual sex acts in school. Education is about Reading, Writing, Math and other Classes, not about homosexual education!
- Join Hawaii Christian Coalition <http://hi-christian.com/> and Hawaii Family Forum's Network to receive Alerts so we know what to do to fight against this bill. www.hawaiifamilyforum.org (Click on Join The Network.)

- Make 50 copies of this flyer & pass them out to parents on your child's Sports Team, your child's Girl Scout or Boy Scout Parents and all the Parents that you know. Let's keep our Parental Rights in Hawaii. Keep spreading the word.

STOP Homosexuals & "Gay" Organizations from teaching our children how to engage in explicit homosexual sex acts in Sex Education Classes in Hawaii's Public Schools!

Join Parental Rights on Facebook: parentalrights.org. Call Rose for more information (808) 627-0839.
