Lewis,

EPA made comments on the final Remediation Verification Report (RVR) which is an enclosure to the Removal Action Decision Document (RADD) for the Red Hill Stilling Basin Closure and Removal Action. Although EPA comments on the RADD were addressed, the RADD can not be finalized until the comments on the RVR is addressed and a revised final RVR is submitted to us. Unfortunately, the RVR, which was written by removal contractor, was archived on the mainland and has to be retrieved before we address the RVR comments. Consequently, we will not be able to meet the 9/5/96 SMP due date for the RADD. We request to postphone the SMP due date for the RADD to 10/17/96. If you concur, just E-mail me by COB tomorrow so I can confirm the revised date in writing.
