Subj: NAVY'S INSTALLATION RESTORATION (IR) PROGRAM

As we agreed, discussions on our responses to your review comments for the Draft Final Remedial Investigation (RI) Phase II Report for the Red Hill Oily Waste Disposal Facility at the Fleet and Industrial Supply Center (FISC) will be scheduled after August 3, 2000. Consequently, the Navy is extending the period to review the draft final report by an additional thirty (30) days as provided by Section 7.7(g) of the Pearl Harbor Naval Complex (PHNC) Federal Facilities Agreement (FFA). Therefore, the new due date for the revised draft final RI report is September 4, 2000.

Should you have any questions concerning this letter, please contact Mr. Wesley Ching (ENV1824/WC), of our Environmental Restoration Division at (808) 474-4513.

Sincerely,

Melvin Z. Waki
