

Hi Carroll,

A mistake was made when Advisory Opinion No. 2010-4 was sent to you. The Commission had determined that, because there was insufficient evidence to support finding probable cause that Mr. Djou had violated the ethics laws, the opinion should not identify Mr. Djou. Unfortunately, the pdf document title identifies Mr. Djou.

I'm asking for your cooperation in following the confidentiality determination by the Commission. Please destroy all electronic and hard copies that identify Mr. Djou. Norm will be sending you a properly redacted copy of the opinion on Monday, 12/10.

If you have any questions, please contact me.

Thank you for your assistance in this matter and I apologize for any inconvenience this may have caused.

Chuck
